Dear Members,

RE: Goals for Half-Share Leases

We would like to congratulate you on the opportunity to have a half share lease of a horse with the Riding Section. This is the first step in owning your own pony/ horse. The lease includes the responsibility of taking an interest in the well-being of your horse beyond the average school rider. Special care is to be taken with regards to the correct fitting of the tack, whether the horse is losing or gaining weight, exercising your horse during public holidays or walking out on rest days. You should discuss with your instructor the above which can help you gain more knowledge and develop a better relationship with your horse.

As you are given the opportunity to ride five times a week, it is effectively crucial that you play a part in maintaining and if possible, improving the physical and mental state of your horse.

We would like to have your plans and goals which will give you something to aim for, as well as for us to monitor your progress. The goals may be short or long term and realistically achievable.

Thank you.

Best regards,
Predrag Marjanovic
